PRELIMINARY ESTIMATES

This preliminary statement of Wage and Salary Earners in Civilian Employment for the month of April, 1964, will be followed by the monthly bulletin "Employment and Unemployment", which gives information in greater detail.

The estimates contained herein are based on comprehensive data derived for the purpose from the Population Census of June, 1961. They are obtained from three main sources, namely, (a) current Pay-roll Tax returns; (b) current returns from Government bodies; and (c) some other direct current records of employment. These data have been supplemented by estimates of the changes in number of wage and salary earners not covered by the foregoing collections. The figures are subject to revision.
